

ISO 10110-12:2019-11 (E)

Optics and photonics - Preparation of drawings for optical elements and systems - Part 12: Aspheric surfaces

Contents		Page
Foreword		iv
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Mathematical description of aspheric surfaces	2
4.1	Coordinate system	2
4.2	Sign conventions	2
4.3	Surface descriptions	3
4.3.1	General	3
4.3.2	Surface description -- Rotationally invariant ($h^2 = x^2 + y^2$)	3
4.3.3	Surface description -- Rotationally variant	7
5	Indications in drawings	10
5.1	Indication of the theoretical surface	10
5.2	Indication of surface form tolerances	11
5.3	Indication of centring tolerances	11
5.4	Indication of surface imperfection and surface texture tolerances	11
6	Examples	11
6.1	Parts with rotationally invariant surfaces	11
6.2	Parts with rotationally variant surfaces	17
Annex A (informative) Summary of aspheric surface types		19
Annex B (informative) Description of orthonormal in slope aspheres		22
Annex C (informative) Description of orthonormal in amplitude aspheres		24
Bibliography		26
