DIN ISO 14999-4 Beiblatt 1:2020-04 (E)

Optics and photonics - Int erferometric measurement of optical elements and optical systems - Part 4: Inter pretation and evaluation of tolerances specified in ISO 10110; Supplement 1

Contents

Page

Foreword ... 3

1 Scope ... 4

2 Normative references ... 4

3 Terms and definitions ... 4

4 Apparatus and test equipment ... 4

5 Preparation of test glass and test object ... 4
5.1 Cleaning ... 4
5.2 Temperature equalization ... 4

6 Procedure ... 5
6.1 Placing of test glass or test object ... 5
6.2 Testing with test glass ... 5
6.2.1 General ... 5
6.2.2 Determination of surface form deviations ... 5

7 Relationship between surface form deviation and radius of curvature ... 5
7.1 Determination of large radii with flat test glasses ... 5
7.2 Determining differences in radii ... 6

Bibliography ... 8
