ISO 15004-1:2020 (E)

Ophthalmic instruments — Fundamental requirements and test methods — Part 1: General requirements applicable to all ophthalmic instruments

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Fundamental requirements

- 4.1 General
- 4.2 Design
- 4.3 Performance
- 4.4 Combination of different devices
- 4.5 Materials
- 4.6 Protection against contaminants
- 4.7 Scales and displays
- 4.8 Thermal hazards
- 4.9 Mechanical hazards

5 Environmental conditions

6 Particular requirements for active ophthalmic instruments

- 6.1 Electrical safety
- 6.2 Inapplicable clauses of IEC 60601-1
- 6.3 Optical radiation hazard

7 Test methods

- 7.1 General
- 7.2 Ignitability
- 7.3 Surface temperatures
- 7.4 Electrical safety

8 Information supplied by the manufacturer

- 8.1 Accompanying documents
- 8.2 Marking

Annex A (informative) Product-related International Standards for ophthalmic instruments
