ISO/TS 17137:2021-09 (E)

Cardiovascular implants and extracorporeal systems - Cardiovascular absorbable implants

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 Device design, fabrication, packaging, and use considerations 2
4.1 Classification 2
4.2 Intended clinical performance 3
4.3 Intended clinical use 3
4.4 Materials 3
4.5 Packaging, labelling and sterilization 4
4.5.1 Packaging 4
4.5.2 Labelling 4
4.5.3 Sterilization 5
4.6 Product shelf-life considerations 6
4.6.1 General information 6
4.6.2 Real-time aging 6
4.6.3 Accelerated aging 7
4.7 Risk management 7
4.7.1 General 7
4.7.2 Failure modes 7
4.7.3 Risk mitigation 8
4.7.4 Specific aspects for absorbable implants 8

5 Design evaluation 9
5.1 Evaluation overview and general considerations 9
5.1.1 Overview 9
5.1.2 General considerations 11
5.2 In vitro procedural evaluation 12
5.2.1 Summary of in vitro evaluation steps 12
5.2.2 Conditioning of test samples 13
5.2.3 Assessment of delivery and placement 13
5.2.4 Assessment of initial function post-deployment 14
5.3 In vitro degradation evaluation 14
5.3.1 General 14
5.3.2 Sample conditioning 15
5.3.3 Mechanical evaluation 15
5.3.4 Cyclic fatigue durability evaluation 16
5.3.5 Physical and chemical degradation evaluation 17
5.3.6 Imaging compatibility evaluation 20
5.4 Biological evaluation 20
5.4.1 General considerations 20
5.4.2 Particulate observation, measurement and assessment -- In vivo 21
5.4.3 Sterilization considerations 21
5.4.4 Drug-device combination product considerations 22
5.5 In vitro-in vivo correlation (IVIVC) 22

5.6 In vivo preclinical evaluation 22
5.6.1 Purpose 22
5.6.2 Specific objectives 23
5.6.3 Protocol 24
5.6.4 Data collection 26
5.6.5 Test report and additional information 26
5.7 Clinical evaluation 27

5.7.1 Purpose 27
5.7.2 Specific objectives 27
5.7.3 Clinical investigation plan (CIP) 28
5.7.4 Data collection 29
5.7.5 Final report 29
5.8 Post-market surveillance 29
5.9 Select clinical trials of absorbable cardiovascular implants 29

Annex A (informative) Explanation on nomenclature of absorb, degrade and related terms 31
