

ISO/TS 17137:2021-09 (E)

Cardiovascular implants and extracorporeal systems - Cardiovascular absorbable implants

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Device design, fabrication, packaging, and use considerations	2
4.1	Classification	2
4.2	Intended clinical performance	3
4.3	Intended clinical use	3
4.4	Materials	3
4.5	Packaging, labelling and sterilization	4
4.5.1	Packaging	4
4.5.2	Labelling	4
4.5.3	Sterilization	5
4.6	Product shelf-life considerations	6
4.6.1	General information	6
4.6.2	Real-time aging	6
4.6.3	Accelerated aging	7
4.7	Risk management	7
4.7.1	General	7
4.7.2	Failure modes	7
4.7.3	Risk mitigation	8
4.7.4	Specific aspects for absorbable implants	8
5	Design evaluation	9
5.1	Evaluation overview and general considerations	9
5.1.1	Overview	9
5.1.2	General considerations	11
5.2	In vitro procedural evaluation	12
5.2.1	Summary of in vitro evaluation steps	12
5.2.2	Conditioning of test samples	13
5.2.3	Assessment of delivery and placement	13
5.2.4	Assessment of initial function post-deployment	14
5.3	In vitro degradation evaluation	14
5.3.1	General	14
5.3.2	Sample conditioning	15
5.3.3	Mechanical evaluation	15
5.3.4	Cyclic fatigue durability evaluation	16
5.3.5	Physical and chemical degradation evaluation	17
5.3.6	Imaging compatibility evaluation	20
5.4	Biological evaluation	20
5.4.1	General considerations	20
5.4.2	Particulate observation, measurement and assessment -- In vivo	21
5.4.3	Sterilization considerations	21
5.4.4	Drug-device combination product considerations	22
5.5	In vitro-in vivo correlation (IVIVC)	22

5.6	In vivo preclinical evaluation	22
5.6.1	Purpose	22
5.6.2	Specific objectives	23
5.6.3	Protocol	24
5.6.4	Data collection	26
5.6.5	Test report and additional information	26
5.7	Clinical evaluation	27
5.7.1	Purpose	27
5.7.2	Specific objectives	27
5.7.3	Clinical investigation plan (CIP)	28
5.7.4	Data collection	29
5.7.5	Final report	29
5.8	Post-market surveillance	29
5.9	Select clinical trials of absorbable cardiovascular implants	29
	Annex A (informative) Explanation on nomenclature of absorb, degrade and related terms	31
	Bibliography	32
