## Implants for surgery - Specification and verification of synthetic anatomical bone models for testing

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Design and development of a synthetic model .....	2
4.1	General .....	2
4.2	Identification of physical model characteristics .....	2
4.3	Model verification .....	3
4.3.1	General .....	3
4.3.2	Model geometrical verification .....	3
4.3.3	Model material verification .....	3
4.3.4	Model mechanical verification .....	3
5	Specification report .....	4
Annex A (informative) Background, detailed scope and rationale .....		5
Annex B (informative) Example of model geometrical verification methods .....		8
Annex C (informative) Example of a specification report .....		10
Bibliography .....		17
