

ISO 8237:2024-06 (E)

Optics and photonics - Optical materials and components - Specification of chalcogenide glass used in the infrared spectrum

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols and units	3
5	Optical properties	3
5.1	General	3
5.2	Transmittance	4
5.3	Refractive index	4
5.4	Temperature dependence of the refractive index	4
5.5	Relative partial dispersion	4
6	Tolerances	4
6.1	General	4
6.2	Refractive index variation	5
6.3	Optical homogeneity (homogeneity of refractive index dn)	5
6.4	Striae	5
6.5	Bubbles and inclusions	6
7	Data sheet contents	6
