## Tissue-engineered medical products - Quantification of bovine type I collagen marker peptide with liquid chromatography - Tandem mass spectrometry

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principles and significances .....	2
4.1	Principles .....	2
4.2	Significances .....	2
5	Reagent and apparatus .....	2
5.1	Reagents and preparation .....	2
5.2	Apparatuses .....	4
6	Experimental procedures .....	4
6.1	Sample preparation .....	4
6.1.1	Test Samples .....	4
6.1.2	Recovery control sample (RCS) .....	4
6.2	Denaturation treatment .....	4
6.2.1	Solid sample .....	4
6.2.2	Liquid sample .....	5
6.2.3	RCS .....	5
6.3	Trypsin digestion .....	5
6.4	LC-MS/MS detection .....	5
6.4.1	LC-MS/MS operating conditions .....	5
6.4.2	Qualitative and quantitative detection .....	7
7	Data collection and calculation .....	7
7.1	Standard curve .....	7
7.2	Result calculation .....	7
8	Acceptable criteria of experimental result .....	8
9	Test report .....	8
Bibliography .....		10
