## Optics and photonics - Microlens arrays - Part 4: Test methods for geometrical properties

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms, definitions and symbols .....	1
4	Coordinate system .....	3
5	Test methods .....	4
5.1	Pitch and surface modulation depth measurement .....	4
5.2	Physical thickness .....	9
5.3	Radius of curvature .....	9
5.4	Surface preparation of microlens array for measurement .....	12
6	Procedure .....	13
6.1	Measurement of pitch and surface modulation depth (lens sag) .....	13
6.2	Measurement of physical thickness .....	13
6.3	Measurement of radius of curvature .....	13
7	Results and uncertainties .....	13
8	Test report .....	14
Annex A (normative) Measurement with a Fizeau interferometer system .....		16
Annex B (informative) Uniformity of array spacing .....		19
Bibliography .....		22
