Ophthalmic optics - Spectacle lenses - Parameters affecting lens power measurement

Contents		Page
Foreword		iv
1	Scope	1
2	Discrepancies due to different focimeter designs and measurement methods	1
2.1	Focimeter design	1
2.2	Wavelength dependence	3
2.3	Target pattern	4
2.4	Front vertex versus back vertex measurements	5
2.5	Choice of the focus	7
3	Systematic errors	8
3.1	Non-linear errors	8
3.2	Lens sag error	8
3.3	Temperature dependence	9
3.4	Calibration	9
3.5	Accuracy versus display step	9
4	Random errors	9
4.1	General	9
4.2	Focusing issues: Theoretical limit	9
4.3	Positioning issues	11
5	Conclusion	13
Bibliography		15
