

# DIN EN 1776:2016-05 (E)

## Gas infrastructure - Gas measuring systems - Functional requirements

---

<b>Contents</b>		<b>Page</b>
European foreword .....		5
Introduction .....		6
1	Scope .....	7
2	Normative references .....	8
3	Terms and definitions .....	9
4	General requirements .....	14
4.1	General .....	14
4.2	Safety and environment .....	14
4.3	Quality system for gas measuring system .....	15
5	Basic requirements for measuring systems .....	15
5.1	General .....	15
5.2	Approach to energy measurement .....	16
5.3	Classification of the measuring system .....	16
5.4	Gas measuring system modules .....	18
6	Energy Determination .....	18
6.1	General .....	18
6.2	Requirements for measurements used in energy determination .....	19
6.3	Calculation method of energy using assigned GCV and P, T, Z values .....	21
6.4	Calculation method of energy using an on-site CVDD and on-site PTZ-Conversion .....	21
6.5	Calculation method of energy using an assigned GCV and PTZ-conversion .....	21
6.6	Calculation method of energy using PT-Conversion and assigned GCV and Z value .....	21
6.7	Calculation method of energy using T-Conversion and assigned GCV, and P, Z values .....	21
6.8	Gas temperature conversion .....	21
6.9	Gas pressure conversion .....	22
6.10	Compressibility conversion .....	22
6.11	PTZ-conversion .....	22
6.12	Uncertainty of energy determination .....	22
7	Design of gas measuring system .....	23
7.1	General .....	23
7.2	Safety provision .....	23
7.3	Housing .....	24
7.4	Gas measuring station .....	24
7.5	External influences .....	24
7.6	Gas measuring installation .....	25
7.7	Calorific value determination system .....	29
7.8	Gas pressure measurement .....	29
7.9	Gas temperature measurement .....	30
7.10	Conversion device .....	31
7.11	Compression factor .....	31
7.12	Pipework requirements .....	32
7.13	Valves .....	32
7.14	Parallel meter runs .....	33
7.15	Pulsations and vibrations .....	33
7.16	Filter .....	34

7.17	Gas conditioning, hydrate protection .....	34
7.18	Duplication of measuring instruments .....	34
7.19	Venting .....	35
7.20	Ventilation .....	35
7.21	Odorants and/or additives .....	35
7.22	Electromagnetic compatibility (EMC) .....	35
7.23	Documented provisions .....	35
8	Construction of a gas measuring installation .....	36
8.1	General .....	36
8.2	Specific requirements for thermowells .....	37
8.3	Specific requirements for (differential) pressure transducers .....	37
8.4	Specific requirements for sampling systems for CVDD's .....	37
8.5	Corrosion protection .....	37
8.6	Electrical equipment in hazardous area .....	38
9	Testing of the gas measuring installation/station .....	38
9.1	Strength and tightness test .....	38
9.2	Purging .....	38
10	Pre-commissioning and commissioning of the gas measuring installation .....	38
10.1	General .....	38
10.2	Pre-commissioning checks .....	39
10.3	Commissioning and re-commissioning .....	39
10.4	Acceptance, documentation and hand-over .....	41
10.5	Post-commissioning checks .....	41
11	Operation and maintenance .....	42
11.1	General .....	42
11.2	Reference equipment .....	43
11.3	Gas meters .....	43
11.4	Conversion devices .....	45
11.5	Calorific value determination device .....	45
11.6	Sensors .....	46
11.7	Calibration/verification and maintenance records .....	46
12	Decommissioning .....	46
Annex A (informative) Guideline for the selection of meters .....		47
Annex B (informative) Sensor test procedures .....		52
B.1	Differential pressure sensors .....	52
B.2	Pressure sensors .....	53
B.3	Temperature sensors .....	53
B.4	Density sensors .....	54
Annex C (informative) Set of formulae to calculate volume or mass to energy .....		56
C.1	General .....	56
C.2	Calculation of volume .....	56
C.3	Calculation of mass .....	57
C.4	Calculation of energy .....	57
Annex D (informative) Conformity assessment for the energy determination .....		58
D.1	Introduction .....	58
D.2	Measurement Systems .....	58
D.3	Energy Measurement Systems .....	59

<b>Annex E (informative) Specific national examples of the assessment of conformity of the metrological performance of a gas measuring system .....</b>	<b>60</b>
<b>E.1 Introduction .....</b>	<b>60</b>
<b>E.2 Example 1 .....</b>	<b>61</b>
<b>E.3 Example 2 .....</b>	<b>64</b>
<b>E.4 Example 3 .....</b>	<b>67</b>
<b>E.5 Example 4 .....</b>	<b>70</b>
<b>E.6 Example 5 .....</b>	<b>72</b>
<b>E.7 Example 6 .....</b>	<b>74</b>
<b>E.8 Example 7 .....</b>	<b>77</b>
<b>Annex F (informative) Documentation and records .....</b>	<b>81</b>
<b>F.1 Documentation .....</b>	<b>81</b>
<b>F.2 Records .....</b>	<b>81</b>
<b>F.3 Documentation approval .....</b>	<b>81</b>
<b>Annex G (informative) Typical examples of positions of gas measuring installations .....</b>	<b>82</b>
<b>Annex H (informative) Significant technical changes from the last edition of this standard, EN 1776:1998 .....</b>	<b>83</b>
<b>Bibliography .....</b>	<b>84</b>
