European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5
3.1 Terms and definitions common to parts 1 to 4 of EN 1918 5
3.2 Terms and definitions not common to parts 1 to 4 of EN 1918 9

4 Requirements for underground gas storage 10
4.1 General 10
4.2 Underground gas storage 11
4.3 Long-term containment of stored gas 14
4.4 Environmental conservation 15
4.5 Safety 15
4.6 Monitoring 15

5 Design 15
5.1 Design principles 15
5.2 Field description and storage behaviour 16
5.3 Determination of the maximum operating pressure 17
5.4 Wells 18
5.5 Monitoring systems 22
5.6 Neighbouring subsurface activities 23

6 Construction 23
6.1 General 23
6.2 Wells 23
6.3 Completions 23
6.4 Wellheads 24

7 Testing and commissioning 24

8 Operation, monitoring and maintenance 24
8.1 Operating principles 24
8.2 Monitoring 24
8.3 Injection and withdrawal operations 25
8.4 Maintenance of wells 25
8.5 HSE 25

9 Abandonment 26
9.1 General 26
9.2 Withdrawal of the gas 27
9.3 Plugging and abandonment of wells 27
9.4 Surface facilities 27
9.5 Monitoring 27

Annex A (informative) Non-exhaustive list of relevant standards 28
