DIN EN 437:2019-04 (E)

Test gases - Test pressures - Appliance categories

Contents

Page

European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Gases 8
4.1 Classification in gas families and groups 8
4.2 Test gases 9

5 Test pressures 13

6 Classification of appliances 15
6.1 Appliance categories 15
6.1.1 General 15
6.1.2 Category I 15
6.1.3 Category II 16
6.1.4 Category III 17
6.2 Operations permitted for a change of gas or pressure, adjustment and regulating devices 18

7 Choice of test gases and test pressures 18

8 Marking 19

Annex A (normative) Conditions for preparation of the test gases 20

Annex B (informative) National situations 21

B.1 General 21
B.2 Categories listed in the body of the standard marketed in the different countries 21
B.3 Appliance supply pressures corresponding to the categories given in B.1 and B.2 24
B.4 Special categories marketed nationally or locally 28
B.4.1 General 28
B.4.2 Categories 33
B.4.2.1 General 33
B.4.2.2 Category I 33
B.4.2.2.1 Appliances designed for the use of gases linked to the first family 33
B.4.2.2.2 Appliances designed for the use of gases of the second family and the gases linked to it 33
B.4.2.2.3 Appliances designed for the use of gases of the third family 35
B.4.2.3 Category II 35
B.4.2.3.1 Appliances designed to use gases of the first family or that are linked to it and gases of the second family or that are linked to it 35
B.4.2.3.2 Appliances designed for the use of gases of the second family or that are linked to it and gases of third family 36
B.4.2.4 Category III 38
B.5 Test gases and test pressures corresponding to the special categories given in B.4 40
B.6 Special conditions 47
B.7 National and local gas distribution specifications relevant for defining appliance categories given in B.4 54

Annex C (informative) Guidelines for extension to other categories 55

Annex D (informative) National situation of countries whose national bodies are CEN affiliate members 56

D.1 General 56
D.2 Categories listed in the body of the standard and marketed in the different countries 56
D.3 Supply pressures of the appliances 58

Annex E (informative) Relationship between the distributed gases and the corresponding test gases 59
