DIN EN 1473:2021-12 (E)

Installation and equipment for liquefied natural gas - Design of onshore installations

Contents

Page

European foreword 4

Introduction 5

1 Scope 6

2 Normative references 7

3 Terms, definitions and abbreviated terms 11
3.1 Terms and definitions 11
3.2 Abbreviations 17

4 Quality management system 18

5 Site assessment 18
5.1 General and plant description 18
5.2 Geotechnical 18
5.3 Meteorological and Oceanographic 20
5.4 Environmental 21
5.5 Surroundings 23
5.6 Seismic 23
5.7 Hydrology 24
5.8 Social 24

6 Risk management 25
6.1 General 25
6.2 Hazard and risk assessment methodologies 26
6.3 Scenario identification 31
6.4 Consequence and impact assessment 32
6.5 Estimation of frequencies and probabilities 36
6.6 Safety improvement 36
6.7 Reviews 37
6.8 Safety during operation 37

7 Design 38
7.1 General 38
7.2 Civil structures 39
7.3 Electrical 53
7.4 Mechanical and piping design/material selection 56
7.5 Process automation and controls 66
7.6 Process technical safety 72
7.7 Marine transfer systems 75
7.8 Storage unit 77
7.9 Rotating equipment 81
7.10 Regasification and send-out unit 83
7.11 Trailer loading unit 84
7.12 Liquefaction unit 84
7.13 Buildings 84
7.14 LNG and NG quality measurement 85
7.15 Custody transfer flow metering 86
7.16 Boil-Off Gas (BOG) systems 86
7.17 Flare/vent system 89

7.18 Utilities 91
Annex A (normative) Thermal radiation threshold values 94
Annex B (normative) Definitions of reference flow rates 97
Annex C (informative) Seismic classification 101
Annex D (normative) Specific requirements for LNG pumps 103
Annex E (normative) Specific requirements for LNG vaporizers 109
Annex F (normative) Criteria for the design of pipes 115
Annex G (informative) Description of the different types of onshore LNG installations 116
Annex H (informative) Trailer loading unit 118
Annex I (informative) Frequency ranges 120
Annex J (informative) Classes of consequence 121
Annex K (informative) Levels of risk 122
Annex L (informative) Typical process steps of liquefaction 124
Annex M (informative) Odorant systems 133
Bibliography 136
