DIN EN 17278:2022-01 (E)

Natural gas vehicles - Vehicle fuelling appliances

Contents

Page

European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 7

4 Abbreviations 10

5 Risk management 10

6 General principles of design 11
6.1 General construction 11
6.2 General requirements 11
6.3 Materials 12
6.4 Internal systems and components of VFA 12
6.4.1 Fuel delivery system 12
6.4.2 Fuelling pressure discharge system 14
6.4.3 Locking system 14
6.4.4 Compressor 14
6.4.5 Gas containment system 14
6.4.6 Temperature compensation system 15
6.4.7 Dryer 16
6.4.8 Safety means 16
6.4.9 Pipework 17
6.5 Permanent joining 17
6.6 Connection to the distribution gas network 17
6.7 Gas composition and odorization 18
6.8 Noise attenuation 18
6.9 Ventilation 18

7 Enclosure 18

8 Testing 19
8.1 General 19
8.2 Strength pressure (proof) test 19
8.2.1 General 19
8.2.2 Procedure of strength pressure (proof) test 19
8.2.3 Fatigue test 20
8.3 Leak testing 20
8.3.1 General 20
8.3.2 Procedure for gas leakage test 20
8.3.3 Liquid leakage testing 20
8.4 Checking of safety devices 20
8.5 Periodic inspection 21
8.5.1 General 21
8.5.2 Periodic inspection of cylinders 21
8.5.3 Periodic inspection of fuelling hose 21

9 Installation 21
9.1 General 21

9.2 VFA location ... 21
9.3 VFA installation outdoors ... 23
9.3.1 VFA location outdoors ... 23
9.3.2 Installation conditions ... 23
9.3.3 Ventilation conditions ... 23
9.4 VFA installation indoors ... 23
9.4.1 VFA location indoors ... 23
9.4.2 Installation conditions ... 24
9.4.3 Ventilation conditions ... 24
9.4.4 Compatibility with other gas appliances ... 25
9.5 Commissioning ... 25

10 Operation ... 25
10.1 General ... 25
10.2 Installation and servicing manual ... 25
10.2.1 General ... 25
10.2.2 Installation instructions ... 26
10.2.3 Maintenance instructions ... 27
10.2.4 Removal instructions for VFA ... 28
10.2.5 Servicing and inspection instructions ... 28
10.3 User's manual ... 28
10.3.1 General ... 28
10.3.2 Front cover ... 28
10.3.3 Safety section ... 29
10.3.4 Additional safety information ... 29

11 User of VFA ... 30

12 Marking and labelling ... 31

13 Maintenance and testing frequency of gas detection system ... 31

Annex A (informative) Additional safety precautions for indoor fuelling of NGV by means of VFA installed outdoors ... 32

Annex ZA (informative) Relationship between this European Standard and the Essential requirements of EU Directive 2014/68/EU (Pressure equipment Directive) aimed to be covered ... 33

Bibliography ... 34
