

DIN EN 17921:2024-08 (E)

Natural gas fuelling stations - LNG unloading connector

Contents		Page
European foreword		4
Introduction		5
1 Scope		6
2 Normative references		7
3 Terms and definitions		8
4 Functional requirements		9
4.1 General requirement		9
4.2 Functional description of the LNG unloading connector		10
4.2.1 General		10
4.2.2 Dry connector		10
4.2.3 Protective cap		10
4.2.4 Type of mounting		10
4.2.5 Positive locking		10
4.2.6 Safe disconnect		10
4.2.7 (Internal) Check valve		10
4.2.8 Venting and depressurization		11
4.2.9 Electrical conductivity		11
4.2.10 Spillage volume		11
5 Technical description of LNG unloading connector		11
5.1 Materials		11
5.1.1 General		11
5.1.2 LNG unloading connector		11
5.1.3 Corrosion protection		11
5.2 Pressure rating		11
5.2.1 Maximum allowable working pressure (MAWP)		11
5.2.2 Maximum working pressure		11
5.2.3 Design cycle life;		11
5.3 LNG unloading connector mounting		12
5.4 LNG unloading connector working temperature range		12
5.4.1 General		12
5.4.2 Material of the bodies of the LNG unloading receptacle and of the LNG unloading nozzle		12
6 Design of the LNG unloading connector		13
7 Tests requirements		14
7.1 General requirements		14
7.1.1 General		14
7.1.2 Ambient test conditions		14
7.1.3 Cryogenic test conditions		15
7.2 Shell tightness at ambient temperature		15
7.3 Shell strength at ambient temperature		15
7.4 Seat tightness at ambient temperature		15
7.5 Obturator strength at ambient temperature against atmosphere		15
7.6 Shell tightness at minimum working temperature		16
7.7 Seat tightness at minimum working temperature		16
7.7.1 General		16

7.7.2	Test arrangement for LNG unloading nozzle (Figure 3)	16
7.7.3	Test arrangement for LNG unloading receptacle (Figure 4)	17
7.8	Burst test	17
7.9	Operation test at minimum working temperature	17
7.10	Endurance test	18
7.11	Bending test	18
7.12	Drop test	18
7.13	Tensile force	19
7.13.1	Manual force in warm conditions	19
7.13.2	Manual force at cold conditions under frost	19
7.14	Corrosion resistance	19
8	Safety requirements	20
9	Maintenance	20
	Bibliography	21
