Foreword v

Introduction vi

0.1 General vi
0.2 Usage vii
0.3 Responsibilities viii
0.4 Training viii
0.5 Business processes viii

1 Scope 1
1.1 General 1
1.2 Objective 1
1.3 Application 1

2 Normative references 2

3 Terms and definitions 2

4 Components of data elements 3
4.1 General 3
4.2 Data element structure 4
4.3 Summary structure 5

5 Subject of care identifiers 6
5.1 General 6
5.2 Subject of care identifier designation 8
5.3 Subject of care identifier geographic area 9
5.4 Subject of care identifier issuer 10
5.5 Subject of care identifier type 10

6 Subject of care name 11
6.1 General 11
6.2 Family name group 17
6.3 Preferred name 22
6.4 Conditional use 22
6.5 Name title group 24
6.6 Given name group 26
6.7 Name suffix group 30
6.8 Name usage group 31
6.9 Alternative name representation 34

7 Additional demographic data 35
7.1 General 35
7.2 Date of birth 36
7.3 Date of death 40
7.4 Sex 43
7.5 Mother's original family name 44
7.6 Country (place) of birth 44
7.7 Birth plurality 45
7.8 Birth order 46
7.9 Identification comment 46

8 Subject of care address 47
8.1 General 47
8.2 Address line 48
8.3 Suburb/town/locality 56
8.4 State/territory/province identifier 57
8.5 Postal code (ZIP code) 57
8.6 Delivery point identifier 58
8.7 Country identifier 58
8.8 Address type 59

9 Subject of care electronic communications 65
9.1 General 65
9.2 Electronic communication medium 66
9.3 Electronic contact preference code 66
9.4 Electronic communication details 67
9.5 Electronic contact usage code 67

10 Biometric identifiers 68

11 Subject of care linkage 69
11.1 General 69
11.2 Subject of care linkage identifier 70
11.3 Subject of care linkage relationship 70

Annex A (informative) Collection of data 71

Annex B (informative) Messaging 74

Annex C (informative) Data matching 76

Annex D (informative) Guide for implementation of subject of care master indices 80

Annex E (informative) Guidelines for searching for a subject of care 83

Annex F (informative) Names condensed guide 85

Bibliography 87
