## Health informatics - Capacity-based eHealth architecture roadmap - Part 1: Overview of national eHealth initiatives

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Terms and definitions .....	1
3	Abbreviations .....	6
4	Initiatives reviewed .....	7
4.1	Health Metrics Network .....	7
4.2	Australia .....	7
4.2.1	National health system .....	7
4.2.2	Focus of national health system .....	9
4.2.3	Components of the national health information system .....	10
4.2.4	National eHealth policies .....	11
4.2.5	National eHealth architecture stage of development .....	15
4.2.6	National data warehouse .....	17
4.2.7	Standards in use .....	17
4.2.8	Standards Development Organizations (SDOs) and Health Informatics Associations .....	19
4.2.9	National reporting infrastructure for individual and/or summary data .....	20
4.2.10	Households with Internet access .....	20
4.3	Brazil .....	20
4.3.1	National health system .....	20
4.3.2	Focus of national health system .....	20
4.3.3	Components of the national health information system .....	22
4.3.4	National eHealth policies .....	23
4.3.5	National eHealth architecture stage of development .....	24
4.3.6	National data warehouse .....	24
4.3.7	Standards in use .....	25
4.3.8	Standards Development Organizations (SDOs) and Health Informatics Associations .....	25
4.3.9	National reporting infrastructure for individual and/or summary data .....	26
4.3.10	Households with Internet access .....	26
4.4	Canada .....	27
4.4.1	National health system .....	27
4.4.2	Focus of national health system .....	29
4.4.3	Components of the national health information system .....	30
4.4.4	National eHealth policies .....	31
4.4.5	National eHealth architecture stage of development .....	32
4.4.6	National data warehouse .....	34
4.4.7	Standards in use .....	34
4.4.8	Standards Development Organizations (SDOs) and Health Informatics Associations .....	34
4.4.9	National reporting infrastructure for individual and/or summary data .....	35
4.4.10	Households with Internet access .....	35
4.5	India .....	35
4.5.1	National health system .....	35
4.5.2	Focus of national health system .....	36
4.5.3	Components of the national health information system .....	37
4.5.4	National eHealth policies .....	37
4.5.5	National eHealth architecture stage of development .....	37

4.5.6	National data warehouse and national reporting infrastructure for individual and/or summary data .....	37
4.5.7	Standards in use .....	37
4.5.8	Standards Development Organizations (SDOs) and Health Informatics Associations .....	38
4.5.9	Households with Internet access .....	38
4.6	Kenya .....	38
4.6.1	National health system; focus of national health system .....	38
4.6.2	Components of the national health information system .....	39
4.6.3	National eHealth policies .....	42
4.6.4	National eHealth architecture stage of development .....	43
4.6.5	Standards in use .....	43
4.6.6	Standards Development Organizations (SDO) and Health Informatics Associations .....	44
4.6.7	National reporting infrastructure for individual and/or summary data .....	44
4.6.8	Households with Internet access .....	44
5	International Monitoring and Evaluation frameworks .....	44
5.1	Overview .....	44
5.2	Global Fund to Fight AIDS, Tuberculosis, and Malaria (GFATM) .....	44
5.3	Joint United Nations Program on HIV/AIDS (UNAIDS) .....	44
5.4	Pan American Health Organization (PAHO) Framework .....	45
5.5	Brazilian Health Indicators Framework .....	45
5.6	Canadian Health Indicators Framework .....	45
5.7	United States Health Indicators Frameworks .....	45
6	Key findings .....	46
7	Need for an eHealth Architecture Maturity Model (eHAMM) .....	49
	Bibliography .....	52
