Health informatics - Capacity-based eHealth architecture roadmap - Part 1: Overview of national eHealth initiatives

Contents		Page
Foreword		v
Introduction		vi
1 Scope		1
2 Terms and definitions		1
3 Abbreviations		6
4 Initiatives reviewed		7
4.1 Health Metrics Network		7
4.2 Australia		7
4.2.1 National health system		7
4.2.2 Focus of national health system		9
4.2.3 Components of the national health information system		10
4.2.4 National eHealth policies		11
4.2.5 National eHealth architecture stage of development		15
4.2.6 National data warehouse		17
4.2.7 Standards in use		17
4.2.8 Standards Development Organizations (SDOs) and Health Informatics Associations		19
4.2.9 National reporting infrastructure for individual and/or summary data		20
4.2.10 Households with Internet access		20
4.3 Brazil		20
4.3.1 National health system		20
4.3.2 Focus of national health system		20
4.3.3 Components of the national health information system		22
4.3.4 National eHealth policies		23
4.3.5 National eHealth architecture stage of development		24
4.3.6 National data warehouse		24
4.3.7 Standards in use		25
4.3.8 Standards Development Organizations (SDOs) and Health Informatics Associations		25
4.3.9 National reporting infrastructure for individual and/or summary data		26
4.3.10 Households with Internet access		26
4.4 Canada		27
4.4.1 National health system		27
4.4.2 Focus of national health system		29
4.4.3 Components of the national health information system		30
4.4.4 National eHealth policies		31
4.4.5 National eHealth architecture stage of development		32
4.4.6 National data warehouse		34
4.4.7 Standards in use		34
4.4.8 Standards Development Organizations (SDOs) and Health Informatics Associations		34
4.4.9 National reporting infrastructure for individual and/or summary data		35
4.4.10 Households with Internet access		35
4.5 India		35
4.5.1 National health system		35
4.5.2 Focus of national health system		36
4.5.3 Components of the national health information system		37
4.5.4 National eHealth policies		37
4.5.5 National eHealth architecture stage of development		37

4.5.6	National data warehouse and national reporting infrastructure for individual and/or summary data	37
4.5.7	Standards in use	37
4.5.8	Standards Development Organizations (SDOs) and Health Informatics Associations	38
4.5.9	Households with Internet access	38
4.6	Kenya	38
4.6.1	National health system; focus of national health system	38
4.6.2	Components of the national health information system	39
4.6.3	National eHealth policies	42
4.6.4	National eHealth architecture stage of development	43
4.6.5	Standards in use	43
4.6.6	Standards Development Organizations (SDO) and Health Informatics Associations	44
4.6.7	National reporting infrastructure for individual and/or summary data	44
4.6.8	Households with Internet access	44
5	International Monitoring and Evaluation frameworks	44
5.1	Overview	44
5.2	Global Fund to Fight AIDS, Tuberculosis, and Malaria (GFATM)	44
5.3	Joint United Nations Program on HIV/AIDS (UNAIDS)	44
5.4	Pan American Health Organization (PAHO) Framework	45
5.5	Brazilian Health Indicators Framework	45
5.6	Canadian Health Indicators Framework	45
5.7	United States Health Indicators Frameworks	45
6	Key findings	46
7	Need for an eHealth Architecture Maturity Model (eHAMM)	49
Bibliography	52
