## In vitro diagnostic test systems - Requirements for blood-glucose monitoring systems for self-testing in managing diabetes mellitus

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | iv          |
| Introduction ..... |   | v           |
| <b>1</b>           | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>           | <b>Normative references .....</b>                                 | <b>1</b>    |
| <b>3</b>           | <b>Terms and definitions .....</b>                                | <b>2</b>    |
| <b>4</b>           | <b>Design and development .....</b>                               | <b>8</b>    |
| 4.1                | General requirements .....  | 8           |
| 4.2                | Metrological traceability .....                                   | 8           |
| 4.3                | Safety and risk management .....                                  | 9           |
| 4.4                | Ergonomics and human factors .....                                | 10          |
| 4.5                | User verification requirements .....                              | 10          |
| <b>5</b>           | <b>Safety and reliability testing .....</b>                       | <b>10</b>   |
| 5.1                | General requirements .....  | 10          |
| 5.2                | Protection against electric shock .....                           | 11          |
| 5.3                | Protection against mechanical hazards .....                       | 11          |
| 5.4                | Electromagnetic compatibility .....                               | 11          |
| 5.5                | Resistance to heat .....  | 11          |
| 5.6                | Resistance to moisture and liquids .....                          | 11          |
| 5.7                | Protection against liberated gases, explosion and implosion ..... | 12          |
| 5.8                | Meter components .....  | 12          |
| 5.9                | Performance test .....  | 12          |
| 5.10               | Mechanical resistance to vibration and shock .....                | 12          |
| 5.11               | Equipment temperature exposure limits for storage .....           | 13          |
| 5.12               | Equipment humidity exposure limits for storage .....              | 13          |
| <b>6</b>           | <b>Analytical performance evaluation .....</b>                    | <b>14</b>   |
| 6.1                | General requirements .....  | 14          |
| 6.2                | Measurement precision .....                                       | 16          |
| 6.3                | System accuracy .....   | 19          |
| 6.4                | Influence quantities .....  | 25          |
| 6.5                | Stability of reagents and materials .....                         | 30          |
| <b>7</b>           | <b>Information supplied by the manufacturer .....</b>             | <b>30</b>   |
| 7.1                | General requirements .....  | 30          |
| 7.2                | Performance characteristics .....                                 | 31          |
| 7.3                | Options for supplying instructions for use .....                  | 31          |
| <b>8</b>           | <b>User performance evaluation .....</b>                          | <b>31</b>   |
| 8.1                | General requirements .....  | 31          |
| 8.2                | Acceptance criteria and evaluation of results .....               | 32          |
| 8.3                | Selection and preparation of subjects .....                       | 32          |
| 8.4                | Execution of study protocol .....                                 | 32          |
| 8.5                | Glucose reference values .....                                    | 33          |
| 8.6                | Human factors .....   | 33          |
| 8.7                | Data analysis and presentation of results .....                   | 33          |

|            |  |           |
|------------|--|-----------|
| <b>8.8</b> | <b>Evaluation of instructions for use .....</b>  | <b>34</b> |
|            | <b>Annex A (informative) Possible interfering substances .....</b>                       | <b>35</b> |
|            | <b>Annex B (informative) Traceability chain .....</b>                                    | <b>36</b> |
|            | <b>Annex C (informative) Rationale for the analytical performance requirements .....</b> | <b>38</b> |
|            | <b>Bibliography .....</b>  | <b>45</b> |
