| Foreword .....     |  | 4           |
| Introduction ..... |  | 5           |
| 1                  | Scope .....  | 6           |
| 2                  | Normative references .....                                     | 6           |
| 3                  | Terms and definitions .....                                    | 7           |
| 4                  | Technical requirements .....                                   | 12          |
| 4.1                | General .....  | 12          |
| 4.1.1              | Risk control and usability .....                               | 12          |
| 4.1.2              | Materials .....  | 13          |
| 4.2                | Sterilizer chamber .....                                       | 13          |
| 4.2.1              | Chamber size .....   | 13          |
| 4.2.2              | Doors, closures and interlocks of the sterilizer chamber ..... | 13          |
| 4.2.3              | Test connections .....   | 14          |
| 4.3                | Design and construction .....                                  | 15          |
| 4.3.1              | General .....  | 15          |
| 4.3.2              | EO vaporizers .....  | 15          |
| 4.3.3              | Pipework and fittings .....                                    | 15          |
| 4.3.4              | Evacuation system .....  | 15          |
| 4.3.5              | Control valves .....   | 16          |
| 4.3.6              | Thermal insulation .....                                       | 16          |
| 4.3.7              | Electrical and mechanical safety .....                         | 16          |
| 4.3.8              | Air or inert gas filter .....                                  | 16          |
| 4.3.9              | Emission control .....   | 16          |
| 4.3.10             | Framework and panelling .....                                  | 17          |
| 4.3.11             | Loading equipment .....  | 17          |
| 4.3.12             | Transport .....  | 17          |
| 4.4                | Indicating, measuring, and recording instruments .....         | 17          |
| 4.4.1              | General .....  | 17          |
| 4.4.2              | Temperature sensor .....                                       | 18          |
| 4.4.3              | Temperature indicating instruments .....                       | 18          |
| 4.4.4              | Pressure sensors .....   | 19          |
| 4.4.5              | Timers and time indicating instruments .....                   | 19          |
| 4.4.6              | Sterilizing cycle counter .....                                | 19          |
| 4.4.7              | Relative humidity (RH) sensors .....                           | 19          |
| 4.4.8              | Ethylene Oxide (EO) concentration-measurement .....            | 19          |
| 4.4.9              | Recording instruments .....                                    | 20          |
| 4.4.10             | Indicating instruments .....                                   | 21          |
| 5                  | Process control .....  | 22          |
| 5.1                | General .....  | 22          |
| 5.2                | Software verification and validation .....                     | 23          |
| 5.3                | Sterilization cycle and automatic control .....                | 23          |
| 5.3.1              | Automatic control .....  | 23          |
| 5.3.2              | Sterilization cycle .....                                      | 24          |
| 5.4                | Override of automatic control .....                            | 27          |
| 5.5                | Fault .....  | 27          |
