Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 General requirements 10
4.1 General 10
4.2 Quality systems 10
4.3 Sampling 11
4.4 Test methods 11
4.5 Documentation 11

5 Materials and preformed sterile barrier systems 12
5.1 General requirements 12
5.2 Microbial barrier properties 14
5.3 Compatibility with the sterilization process 15
5.4 Compatibility with the labelling system 15
5.5 Storage and transport 15

6 Design and development requirements for packaging systems 16
6.1 General 16
6.2 Design 16
6.3 Packaging-system performance testing 17
6.4 Stability testing 17

7 Information to be provided 18

Annex A (informative) Guidance on medical packaging 19

A.1 Factors influencing the choice of the materials and design of the packaging system 19
A.2 Sterilization processes and considerations 19
A.3 Sterile barrier systems 19

Annex B (informative) Standardized test methods and procedures that may be used to demonstrate compliance with the requirements of this part of ISO 11607 22

B.1 General 22

Annex C (normative) Test method for resistance of impermeable materials to the passage of air 31

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 93/42/EEC on medical devices 32
