## Health informatics - Capacity-based eHealth architecture roadmap - Part 2: Architectural components and maturity model

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Terms and definitions .....	2
3	Abbreviations .....	12
4	Overview of business requirements .....	13
5	Development and application of eHealth enterprise architectures .....	13
5.1	eHealth enterprise architectures .....	13
5.2	Development of an eHealth architecture .....	13
5.3	Building up the architecture: A methodology .....	14
6	Health architecture components and requirements .....	20
6.1	Governance and national ownership .....	22
6.2	Health process domain components .....	44
6.3	Foundation Components -- eHealth infrastructure .....	85
6.4	Foundation components -- ICT infrastructure .....	100
7	Profiling countries with the eHAM .....	111
8	Future Considerations .....	115
Annex A (informative) World Economic Forum -- Global Health Data Charter .....		117
Annex B (informative) Generic component model .....		121
Annex C (informative) Health informatics -- Service architecture (HISA) .....		122
Annex D (informative) Candidate standard supporting eHealth Architecture Model and Maturity Models .....		125
Annex E (informative) WHO Indicator and Measurement Registry (IMR) .....		128
Annex F (informative) Statistical Data and Metadata Exchange for the Health Domain (SDMX-HD) .....		129
Annex G (informative) List of figures and tables in this part of ISO 14639 .....		132
Bibliography .....		133
