Wheelchair seating - Part 12: Apparatus and method for cushion envelopment testing

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Indenter construction	2
4.1	Materials	2
4.2	Tolerances and finishes	2
4.3	Indenter elements	3
4.3.1	Trochanter bar	3
4.3.2	Trochanter buttons	3
4.3.3	Bulbous indenter half	4
4.4	Indenter assembly	5
4.5	Sensor locations	6
4.5.1	General	6
4.5.2	Elevation1	6
4.5.3	Elevation2	7
4.5.4	Elevation3	7
4.5.5	Elevation4	7
5	Instrumentation hardware	8
5.1	Electronics	8
5.2	Loading equipment	8
6	Preparation of test cushion	8
6.1	Cushion adjustment	8
6.2	Preconditioning the cushion to the test environment	8
7	Envelopment test method	8
7.1	Rationale	8
7.2	Method	8
7.2.1	Setting the datum height for the indenter	8
7.2.2	Pre-conditioning the cushion	8
7.2.3	Measuring the seat cushion thickness	9
7.2.4	Load application and data collection	9
7.3	Calculations	10
8	Test report	11
Annex A (normative) Method adaptations for cushions that utilize offloading		13
