

ISO 18746:2016-08 (E)

Traditional Chinese medicine - Sterile intradermal acupuncture needles for single use

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Structure and dimension of intradermal acupuncture needles	2
4.1	Size designation	2
4.2	Structure and dimension of intradermal granule type needle	3
4.2.1	Structure of intradermal granule type needle	3
4.2.2	Dimension of intradermal granule type needle	3
4.3	Structure and dimension of intradermal thumbtack type needle	4
4.3.1	Structure of intradermal thumbtack type needle	4
4.3.2	Dimension of intradermal thumbtack type needle	4
5	Materials	5
5.1	General	5
5.2	Body of intradermal acupuncture needle	5
6	Performance requirements	5
6.1	Appearance and cleanliness	5
6.2	Drawing strength	5
6.3	Hardness of the needle body	6
6.4	Intensity and puncture performance of the needle tip	6
6.5	Sterility	6
7	Packing and identification	6
7.1	Primary packaging	6
7.1.1	Packing method	6
7.1.2	Identification	6
7.2	Secondary packaging	7
7.2.1	Packing method	7
7.2.2	Identification	7
