## Biotechnology - Ancillary materials present during the production of cellular therapeutic products - Part 1: General requirements

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Abbreviated terms .....	3
5	Considerations .....	3
5.1	General considerations .....	3
5.2	Animal-derived components of AM .....	3
5.2.1	General .....	3
5.2.2	Levels of ADCF .....	3
5.2.3	Key considerations in the use of animal-derived components .....	4
5.2.4	Viral inactivation .....	4
5.3	Mutual responsibilities for AMs .....	4
5.4	Example workflow .....	5
6	Ancillary material requirements .....	6
6.1	Quality management system .....	6
6.2	Information on ancillary material products and materials used to produce ancillary materials .....	6
Annex A (informative) Example of workflow from AM supplier to AM user .....		7
Annex B (informative) Information on AM products and materials used to produce AM .....		8
Bibliography .....		10
