

ISO 15195:2018 (E)

Laboratory medicine — Requirements for the competence of calibration laboratories using reference measurement procedures

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	General requirements
5	Structural requirements
6	Resource requirements
6.1	General
6.2	Personnel
6.3	Laboratory facilities and environmental conditions
6.4	Equipment
6.5	Metrological traceability
6.6	Reference materials
6.7	Externally provided products and services
7	Process requirements
7.1	Review of requests, tender and contracts
7.2	Reference measurement procedures
7.3	Handling of samples
7.4	Measurement records
7.5	Evaluation of measurement uncertainty
7.6	Ensuring the validity of measurement results
7.7	Reporting measurement results
8	Management requirements
8.1	General
8.2	Internal audits
Annex A	(informative) Relationship to ISO/IEC 17025:2017
