ISO/TS 20758:2019 (E)

Traditional Chinese medicine — Abdominal physiological parameter detectors

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Test conditions

- 4.1 Ambient temperature, humidity, atmospheric pressure
- 4.2 Warm-up
- 4.3 Accuracy of the inspection equipment

5 Technical requirements

- 5.1 Force detection
- 5.1.1 Maximum applied force
- 5.1.2 Force measurement range and accuracy
- 5.1.3 Resolution
- 5.1.4 Accuracy
- 5.2 Dynamic signal
- 5.3 Overload capacity
- 5.4 Geometrical shape of force detector
- 5.5 Abdominal deformation along the direction of applied force
- 5.6 Detection position (x, y)
- 5.7 Temperature detection
- 5.7.1 Ambient and abdominal temperature detection
- 5.7.2 Ambient temperature detection
- 5.7.3 Abdominal temperature detection
- 5.8 Biocompatibility
