DIN EN ISO 20789:2020-02 (E)

Anaesthetic and respiratory equipment - Passive humidif iers (ISO 20789:2018)

Contents

Page

European foreword **4**

Foreword **5**

Introduction **6**

1 * Scope **8**

2 Normative references **9**

3 Terms and definitions **10**

4 General requirements for testing **12**
4.1 Water level 12
4.2 PASSIVE HUMIDIFIER test conditions 13
4.3 * Gas flowrate and leakage specifications 13
4.4 * PASSIVE HUMIDIFIER testing errors 13

5 General requirements **13**
5.1 Mechanical BASIC SAFETY for all PASSIVE HUMIDIFIERS 13
5.1.1 General 13
5.1.2 * Requirements for instability from unwanted lateral movement 13
5.1.3 * Requirements for audible acoustic energy 14
5.1.4 * Overflow 15
5.1.5 * Overpressure requirement 15
5.2 Compatibility requirement 16
5.3 General requirements for mechanical strength 16

6 Identification, marking and ACCOMPANYING DOCUMENTATION **17**
6.1 Legibility and durability of markings 17
6.1.1 Legibility 17
6.1.2 Durability 17
6.2 Markings on the outside of the PASSIVE HUMIDIFIER or its parts 17
6.2.1 Identification 17
6.2.2 Additional requirements 18
6.2.3 Requirements for physiological effects 19
6.2.4 Requirements for packaging 19
6.2.5 Symbols 19
6.3 Units of measurement 19
6.4 Instructions for use 19
6.4.1 Identification 19
6.4.2 General requirements 20
6.4.3 * Requirements for warnings and safety notices 21
6.4.4 Requirements for installation 21
6.4.5 Requirements for start-up PROCEDURE 21
6.4.6 * Requirements for operating instructions 21
6.4.7 Requirements for CLEANING, DISINFECTION, and STERILIZATION 23
6.4.8 Requirements for maintenance 23
6.4.9 Requirements for ACCESSORIES, supplementary equipment and used material 23
6.4.10 Unique version identifier 23
6.5 Technical description 24

7 * HUMIDIFICATION OUTPUT **24**

8 Systems requirements **24**

9 Specific SINGLE FAULT CONDITIONS **25**

10 * Cleaning and disinfection 25
10.1 General 25
10.2 Home healthcare environment 25
11 * Breathing system connectors and ports 25
11.1 General 25
11.2 Outlet connector 26
11.2.1 Directly connected to the supply source 26
11.2.2 Indirectly connected to the supply source 26
11.3 Flow-direction-sensitive components 26
11.4 * Accessory port 26
11.5 Monitoring probe port 27
11.6 Oxygen inlet port 27
11.6.1 Directly connected to the supply source 27
11.6.2 Indirectly connected to the supply source 27
11.7 Air inlet port 27
11.7.1 Directly connected to the supply source 27
11.7.2 Indirectly connected to the supply source 27
11.8 Filling port 27
12 * Requirements for the breathing system and accessories 28
12.1 General 28
12.2 Accompanying documentation 28
12.3 Breathing tubes 28
12.4 Liquid container level 28
12.5 Filling cap 28
13 Compatibility with substances 29
14 * Biocompatibility 29
15 * Requirements for fire prevention 29
16 Usability 30
Annex A (informative) **Rationale and guidance 31**
Annex B (informative) **Symbols on marking 39**
Annex C (normative) **Determination of humidification output 41**
Annex D (informative) **Reference to the essential principles 45**
Annex E (informative) **Terminology — Alphabetized index of defined terms 47**
Bibliography 49
