DIN 13273-7:2020-12 (E)

Catheter for medical use - Part 7: Determination of the x-ray attenuation of catheters; requirements and testing

Contents

Page

Foreword ... 3

1 Scope ... 4

2 Normative references ... 4

3 Terms and definitions ... 4

4 Requirements ... 4

5 Measurement and test methods ... 5

6 Test procedure ... 6

7 Evaluation ... 7
7.1 General ... 7
7.2 Determination of the aluminium thickness equivalency ... 8
7.2.1 Definition of a representative test area of the test object ... 8
7.2.2 Determination of contrast for the test object ... 8
7.2.3 Determination of aluminium step wedge contrast ... 9
7.2.4 Calculation of the aluminium thickness equivalency ... 10

8 Test report ... 11
