DIN EN 12353:2021-11 (E)

Chemical disinfectants and antiseptics - Preservation of test organisms used for the determination of bactericidal (including Legionella), mycobactericidal, sporicidal, fungicidal and virucidal (including bacteriophages) activity

Contents

Page

European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Requirements 6

5 Methods 7
5.1 Principle 7
5.2 Test organisms, culture media and reagents 7
5.2.1 Test organisms 7
5.2.2 Culture media and reagents 7
5.2.3 Cell cultures 14
5.2.4 Host strains for dairy bacteriophages (Lactococcus lactis) 15
5.3 Apparatus and glassware 16
5.3.1 General 16
5.3.2 Usual microbiological laboratory equipment 16
5.4 Procedure for preservation of test organisms - General 17
5.4.1 Handling of freeze-dried / frozen test organisms from culture collections 17
5.4.2 Choice of incubation procedure, agar medium, cell culture/cell line 17
5.5 Procedure for preservation of bacteria (incl. Legionella, aerobic spore-forming bacteria, excl. mycobacteria and bacterial spores) and yeasts 18
5.5.1 Reconstitution of the freeze-dried test organisms 18
5.5.2 Preparation for storage 18
5.5.3 Preparation of stock culture / working cultures 19
5.6 Procedure for preservation of mycobacteria 19
5.6.1 Reconstitution of the freeze-dried test organisms 19
5.6.2 Preparation for storage 19
5.6.3 Preparation of working cultures 20
5.7 Procedure for preservation of moulds (e.g. Aspergillus brasiliensis) 20
5.7.1 Reconstitution of the freeze-dried test organism 20
5.7.2 Preparation for storage 20
5.7.3 Preparation of stock culture / working cultures 21
5.8 Procedure for preservation of viruses (except dairy bacteriophages) 21
5.8.1 Reconstitution of frozen virus 21
5.8.2 Preparation for storage of stock virus suspension 21
5.8.3 Preparation of test virus suspension 21
5.9 Procedure for preservation of bacteriophages 22
5.9.1 Reconstitution of frozen bacteriophages 22
5.9.2 Preparation for storage 22
5.9.3 Preparation of bacteriophages working suspensions 22
5.10 Verification of the purity and identity of test organisms 22
5.10.1 General 22
5.10.2 Information on source of strains 23

5.10.3 Purity 23
5.10.4 Identity 23
5.11 Documentation 23
5.11.1 General 23
5.11.2 Freeze-dried test organism / frozen viruses 23
5.11.3 Cryovials of frozen test organism 23
5.11.4 Stock culture 24
5.11.5 Verification of purity and identity 24
5.11.6 Storage of documentation 24

Annex A (informative) Test organisms - Culture collection references and relation to CEN/TC 216 standards 25

Annex B (informative) Graphical representations 29
