DIN EN ISO 80601-2-85:2022-01 (E)

Medical electrical equipment - Part 2-85: Particular requirements for the basic safety and essential performance of cerebral tissue oximeter equipment (ISO 8060 1-2-85:2021)

Contents

Page

European foreword 5

Foreword 6

Introduction 7

201.1 Scope, object and related standards 9
201.1.1 * Scope 9
201.1.2 Object 10
201.1.3 Collateral standards 10
201.1.4 Particular standards 11

201.2 Normative references 12

201.3 Terms and definitions 13

201.4 General requirements 18
201.4.3.101 * Additional requirements for *essential performance* 19
201.4.102 Additional requirements for acceptance criteria 19
201.4.103 Additional requirements for *cerebral tissue oximeter equipment*, parts and *accessories* 19

201.5 General requirements for testing of *ME equipment* 20

201.6 Classification of *ME equipment* and *ME systems* 20

201.7 *ME equipment* identification, marking and documents 20
201.7.1.101 *Information to be supplied by the manufacturer* 20
201.7.2.3 Consult *accompanying documents* 20
201.7.2.9.101 IP classification 20
201.7.2.101 Additional requirements for marking on the outside of *ME equipment* parts 21
201.7.4.3 Units of measurement 21
201.7.9.2 Instructions for use 21
201.7.9.2.1.101 Additional general requirements 21
201.7.9.2.2.101 Additional requirements for warnings and safety notices 23
201.7.9.2.9.101 Additional requirements for operating instructions 23
201.7.9.2.14.101 Additional requirements for *accessories*, supplementary equipment, used material 23
201.7.9.3.1.101 * Additional general requirements 24

201.8 Protection against electrical *hazards* from *ME equipment* 24
201.8.3.101 Additional requirements for classification of *applied parts* 24
201.8.5.5.1.101 Defibrillation protection 24
201.8.7.4.7.101 Additional requirements for measurement of the *patient leakage current* 24

201.9 Protection against mechanical *hazards* of *ME equipment* and *ME systems* 25

201.10 Protection against unwanted and excessive radiation *hazards* 25
201.10.4 Lasers 25

201.11 Protection against excessive temperatures and other *hazards* 25
201.11.1.2.2 *Applied parts* not intended to supply heat to a *patient* 25
201.11.6.5.101 * Additional requirements for ingress of water or particulate matter into the *ME equipment* or *ME system* 26
201.11.6.7 *Sterilization* of *ME equipment* or *ME system* 26

201.11.8.101 Additional requirements for interruption of the power supply/*supply mains* to *ME equipment* 26
201.11.8.101.1 *Technical alarm condition* for power supply failure 26
201.11.8.101.2 Settings and data storage following short interruptions or automatic switchover 27
201.11.8.101.3 Operation following long interruptions 27

201.12 Accuracy of controls and instruments and protection against hazardous outputs 27
201.12.1.101 * StO_2 *accuracy* of *cerebral tissue oximeter equipment* 27
201.12.1.101.1 * Specification 27
201.12.1.101.2 * Data collection for determination of StO_2 *accuracy* 29
201.12.1.101.3 * Data analysis for determination of StO_2 *accuracy* 30
201.12.1.101.4 Characteristics of the study used for determination of StO_2 *accuracy* 31
201.12.4 Protection against hazardous output 31
201.12.4.101 * *Data update period* 31
201.12.4.102 * Signal inadequacy 31

201.13 *Hazardous situations* and fault conditions for *ME equipment* 32
201.13.101 Detection of *probe faults* and *probe cable extender* faults 32

201.14 *Programmable electrical medical systems* (*PEMS*) 32

201.15 Construction of *ME equipment* 32
201.15.3.5.101 * Additional requirements for rough handling 33
201.15.3.5.101.1 * Shock and vibration (robustness) 33
201.15.3.5.101.2 * Shock and vibration for a *transit-operable cerebral tissue oximeter* during operation 34
201.15.101 Mode of operation 35

201.16 *ME systems* 35

201.17 Electromagnetic compatibility of *ME equipment* and *ME systems* 35

201.101 * *Cerebral tissue oximeter probes* and *probe cable extenders* 35
201.101.1 General 35
201.101.2 Labelling 36

201.102 *Functional connection* 36
201.102.1 General 36
201.102.2 * Connection to an electronic health record or *integrated clinical environment* 36
201.102.3 Connection to a *distributed alarm system* 36

202 Electromagnetic disturbances — Requirements and tests 37
202.4.3.1 Configurations 37
202.5.2.2.1 Requirements applicable to all *ME equipment* and *ME systems* 37
202.8.1.101 Additional general requirements 37
202.8.2 *Patient* physiological simulation 37

206 Usability 38

208 General requirements, tests and guidance for alarm systems in medical electrical equipment and medical electrical systems 38
208.6.1.2.101 * Additional requirements for *alarm condition* priority 38
208.6.5.4.101 * Additional requirements for *default alarm preset* 39
208.6.8.5.101 Additional requirements for *alarm signal* inactivation states, indication and access 39

211 Requirements for medical electrical equipment and medical electrical systems used in the home healthcare environment 39

212 Requirements for medical electrical equipment and medical electrical systems used in the emergency medical services environment **39**

Annex C (informative) **Guide to marking and labelling requirements for *ME equipment* and *ME systems*** **40**

Annex D (informative) **Symbols on marking** **44**

Annex AA (informative) **Particular guidance and rationale** **45**

Annex BB (informative) **Skin temperature at the *cerebral tissue oximeter probe*** **56**

Annex CC (informative) **Determination of *accuracy*** **58**

Annex DD (informative) **Characteristics of a *tissue haemoglobin phantom* for the *verification* of the *accuracy* of *cerebral tissue oximeter equipment*** **64**

Annex EE (informative) **Guideline for evaluating and documenting StO_2 *accuracy* in human subjects** **74**

Annex FF (informative) ***Functional testers* for *cerebral tissue oximeter equipment*** **80**

Annex GG (informative) **Concepts of *ME equipment* response time** **83**

Annex HH (normative) **Data interface requirements** **88**

Annex II (informative) **Comparison of methods of performance evaluation** **92**

Annex JJ (informative) **Reference to the IMDRF *essential principles* and labelling guidances** **97**

Annex KK (informative) **Reference to the *essential principles*** **100**

Annex LL (informative) **Reference to the general safety and performance requirements** **103**

Annex MM (informative) **Terminology — alphabetized index of defined terms** **106**

Bibliography **110**
