Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **2**
3.1 Healthcare 2
3.2 System concepts 3
3.3 Concepts relating to organization 4
3.4 Community concepts 4
3.5 Behaviour concepts 5
3.6 Policy concepts 7
3.7 Accountability, responsibility and time concepts 7
3.8 Information management 9

4 Symbols and abbreviations **10**

5 Methodology for the specification of the architecture **10**
5.1 General 10
5.2 Viewpoints for the specification of the architecture 10
5.3 The HISA specification procedure 11
5.3.1 The strategic paradigm 11
5.3.2 Specification of the enterprise viewpoint 12
5.3.3 Specification of the information viewpoint 12
5.3.4 Specification of the computational viewpoint 13
5.4 Iterative specification 13
5.5 Viewpoints specification languages, notations and levels of abstraction 14

6 HISA overview **15**
6.1 General requirement 15
6.2 Enterprise viewpoint 16
6.3 Information viewpoint 17
6.4 Computational viewpoint 18

7 Methodology for extensions **19**

8 Conformance criteria **19**
8.1 General 19
8.2 Conformance of specification documents to the HISA methodology 20
8.3 Conformance of middleware products to the HISA architectural requirements 20

9 The HISA Enterprise viewpoint **21**
9.1 Overview 21
9.1.1 General 21
9.1.2 The regional, inter-enterprise perspective 21
9.1.3 The medical/clinical perspective 22
9.1.4 The operational/clinical and organizational process model perspective 24
9.1.5 The information services and their complexity 28
9.2 The fundamental workflows and groups of users' activities to be supported by the middleware 28

9.3 General information requirements for all users' activities 30
9.3.1 General 30
9.3.2 Common attributes 30
9.3.3 Extensibility 30
9.3.4 Versioning 31
9.3.5 Auditing 31
9.3.6 Handling of life cycle 31
9.4 Subject of care workflow 31
9.4.1 Textual description of requirements 31
9.4.2 Use-case examples 33
9.5 Healthcare information workflow 38
9.5.1 Textual specification of requirements 38
9.5.2 Use-case examples 39
9.6 Healthcare activity management workflow 40
9.6.1 Textual description of requirements 40
9.6.2 Use-case examples 43
9.6.3 Examples of functions from ISO/HL7 10781 supporting the use case 46
9.7 Resources management activities 47
9.8 Management activities for users and authorizations 47
9.9 Classifications, coding and dictionaries management activities 49
9.9.1 General description of requirements 49
9.9.2 Examples of functions from ISO/HL7 10781 providing support 51

Annex A (informative) **Highlights of ODP** **52**

Annex B (informative) **Rationale for the federative structure of the health informatics service architecture** **55**

Annex C (informative) **Cross-Domain Interoperability** **58**

Bibliography **65**
