European foreword ... **3**

Foreword ... **4**

Introduction ... **5**

1 Scope ... **6**

2 Normative references ... **6**

3 Terms and definitions ... **6**

4 General considerations ... **13**

5 Activities outside the laboratory ... **15**
5.1 Specimen collection ... 15
5.1.1 General ... 15
5.1.2 Information about the patient/specimen donor ... 15
5.1.3 Information about the specimen ... 15
5.1.4 Specimen processing, intermediate storage and preparation for transport ... 16
5.2 Transport ... 17

6 Activities inside the laboratory ... **17**
6.1 Specimen reception ... 17
6.2 Formalin fixation of the specimen or sample(s) ... 17
6.3 Evaluation of the pathology of the specimen and selection of the sample(s) ... 18
6.3.1 General ... 18
6.3.2 Macroscopic evaluation ... 19
6.3.3 Selection of the sample(s) ... 19
6.4 Post-fixation of frozen samples from intraoperative consultation ... 20
6.5 Sample decalcification/softening ... 20
6.6 Tissue processing and paraffin embedding ... 21
6.6.1 General ... 21
6.6.2 Dehydration and clearing ... 21
6.6.3 Impregnation with paraffin and paraffin embedding ... 22
6.7 Storage of FFPE tissue blocks ... 22
6.8 Sectioning of FFPE tissue blocks and storage of slide-mounted sections ... 23
6.9 Deparaffinization and rehydration of slide-mounted sections ... 24
6.10 Pretreatment of slide-mounted sections for in situ detection techniques ... 24
6.10.1 General ... 24
6.10.2 Pretreatment for antibody- or other affinity binder-based in situ detection techniques ... 24
6.10.3 Pretreatment for hybridization-based in situ detection techniques ... 25
6.10.4 Pretreatment for other in situ detection techniques ... 25
6.11 Quality assessment of the pre-analytical part of in situ detection ... 25

Annex A (informative) **Recommendations relating to verification and validation of laboratory developed in situ detection tests** ... **26**

Annex B (informative) **Example protocol for tissue processing** ... **27**
