ISO 23903:2021 (E)

Health informatics — Interoperability and integration reference architecture – Model and framework

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Abbreviations

5 Overview on standard system architecture

6 Interoperability and Integration Reference Architecture for ICT Supported Systems

- 6.1 Interoperability and Integration Reference Architecture domains and granularity levels
- 6.2 Interoperability and Integration Reference Architecture model for ICT supported systems
- 6.3 Interoperability and Integration Reference Architecture framework
- 6.3.1 Basic requirements
- 6.3.2 Management of relationships in the Interoperability and Integration Reference Architecture
- 6.3.3 Business process modelling using the Interoperability and Integration Reference Architecture

Annex A (informative) Cross-domain interoperability for security and privacy aware EHR communication

Annex B (informative) Interoperability between different communication standards

Annex C (informative) Integration of Standards in ISO 12967 (all parts)

Annex D (informative) Deployment of the Interoperability and Integration Reference Architecture Approach in ISO 13972

Annex E (informative) Deployment of the Interoperability and Integration Reference Architecture Approach for the Representation and Harmonization of Alternative Reference Architectures
