ISO 22467:2021-10 (E)

Traditional Chinese medicine - Determination of microorganisms in natural products

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative reference 1

3 Termsanddefinitions 1

4 Symbols and abbreviated terms 1

5 Test methods 2
5.1 General 2
5.2 Strains 2
5.3 Test for sterility 2
5.3.1 General 2
5.3.2 Culture media and incubation temperatures 2
5.3.3 Growth promotion test for aerobes, anaerobes and fungi 3
5.3.4 Method suitability test 3
5.3.5 Test for sterility of the product to be examined 4
5.4 Microbiological examination of non-sterile products: microbial enumeration tests 7
5.4.1 General 7
5.4.2 Growth promotion test, suitability of the counting method and negative controls 7
5.4.3 Testing of products 13
5.4.4 Interpretation of the results 14
5.5 Microbiological examination of non-sterile products: tests for specified microorganisms 14
5.5.1 General 14
5.5.2 Growth-promoting and inhibitory properties of the media, suitability of the test and negative controls 15
5.5.3 Testing of products 17

6 Acceptance criterion of test methods 20
6.1 Acceptance criterion of test for sterility 20
6.1.1 Acceptance criterion of sterility in test for culture medium 20
6.1.2 Acceptance criterion of growth promotion test of aerobes, anaerobes and fungi 21
6.1.3 Acceptance criterion of method suitability test 21
6.1.4 Acceptance criterion of test for sterility 21
6.2 Acceptance criterion of microbial enumeration tests in microbiological examination of non-sterile products 21
6.2.1 Acceptance criterion of preparation of test strains in microbiological examination of non-sterile products: microbial enumeration tests 21
6.2.2 Acceptance criterion of negative control in microbiological examination of non-sterile products 21
6.2.3 Acceptance criterion of media suitability in microbiological examination of non-sterile products 22
6.2.4 Acceptance criterion of the method suitability in microbiological examination of non-sterile products 22
6.2.5 Acceptance criterion of the validity of the results in microbiological examination of non-sterile products 22
6.3 Acceptance criterion of tests for specified microorganisms in microbiological examination of non-sterile products 22

6.3.1 Acceptance criterion of preparation of test strains in microbiological examination of non-sterile products: tests for specified microorganisms 22
6.3.2 Acceptance criterion of negative control in microbiological examination of non-sterile products: tests for specified microorganisms 22
6.3.3 Acceptance criterion of media suitability in microbiological examination of non-sterile products: tests for specified microorganisms 22
6.3.4 Acceptance criterion of the method suitability in microbiological examination of non-sterile products: tests for specified microorganism 23
6.3.5 Acceptance criterion of the validity of the results in microbiological examination of non-sterile products 23

Annex A (normative) Microbiological quality of natural products 24

Annex B (informative) Recommended solutions and culture media 35
