

ISO 22467:2021-10 (E)

Traditional Chinese medicine - Determination of microorganisms in natural products

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative reference	1
3	Terms and definitions	1
4	Symbols and abbreviated terms	1
5	Test methods	2
5.1	General	2
5.2	Strains	2
5.3	Test for sterility	2
5.3.1	General	2
5.3.2	Culture media and incubation temperatures	2
5.3.3	Growth promotion test for aerobes, anaerobes and fungi	3
5.3.4	Method suitability test	3
5.3.5	Test for sterility of the product to be examined	4
5.4	Microbiological examination of non-sterile products: microbial enumeration tests	7
5.4.1	General	7
5.4.2	Growth promotion test, suitability of the counting method and negative controls	7
5.4.3	Testing of products	13
5.4.4	Interpretation of the results	14
5.5	Microbiological examination of non-sterile products: tests for specified microorganisms	14
5.5.1	General	14
5.5.2	Growth-promoting and inhibitory properties of the media, suitability of the test and negative controls	15
5.5.3	Testing of products	17
6	Acceptance criterion of test methods	20
6.1	Acceptance criterion of test for sterility	20
6.1.1	Acceptance criterion of sterility in test for culture medium	20
6.1.2	Acceptance criterion of growth promotion test of aerobes, anaerobes and fungi	21
6.1.3	Acceptance criterion of method suitability test	21
6.1.4	Acceptance criterion of test for sterility	21
6.2	Acceptance criterion of microbial enumeration tests in microbiological examination of non-sterile products	21
6.2.1	Acceptance criterion of preparation of test strains in microbiological examination of non-sterile products: microbial enumeration tests	21
6.2.2	Acceptance criterion of negative control in microbiological examination of non-sterile products	21
6.2.3	Acceptance criterion of media suitability in microbiological examination of non-sterile products	22
6.2.4	Acceptance criterion of the method suitability in microbiological examination of non-sterile products	22
6.2.5	Acceptance criterion of the validity of the results in microbiological examination of non-sterile products	22
6.3	Acceptance criterion of tests for specified microorganisms in microbiological examination of non-sterile products	22

6.3.1	Acceptance criterion of preparation of test strains in microbiological examination of non-sterile products: tests for specified microorganisms	22
6.3.2	Acceptance criterion of negative control in microbiological examination of non-sterile products: tests for specified microorganisms	22
6.3.3	Acceptance criterion of media suitability in microbiological examination of non-sterile products: tests for specified microorganisms	22
6.3.4	Acceptance criterion of the method suitability in microbiological examination of non-sterile products: tests for specified microorganism	23
6.3.5	Acceptance criterion of the validity of the results in microbiological examination of non-sterile products	23
Annex A (normative) Microbiological quality of natural products		24
Annex B (informative) Recommended solutions and culture media		35
Bibliography		40
