

ISO 23419:2021-12 (E)

Traditional Chinese medicine - General requirements for manufacturing procedures and quality assurance of granules

| Contents | Page |
|--|-------------|
| Foreword..... | iv |
| Introduction..... | v |
| 1 Scope..... | 1 |
| 2 Normative references..... | 1 |
| 3 Terms and definitions..... | 1 |
| 4 General requirements of manufacturing procedures..... | 3 |
| 4.1 General..... | 3 |
| 4.2 Crushing..... | 4 |
| 4.3 Extraction..... | 4 |
| 4.4 Liquid-solid separation..... | 5 |
| 4.5 Concentration and drying..... | 5 |
| 4.6 Granulation..... | 6 |
| 4.6.1 General..... | 6 |
| 4.6.2 Dry granulation..... | 6 |
| 4.6.3 Semi-dry granulation..... | 7 |
| 4.6.4 Wet granulation..... | 7 |
| 4.7 Compaction..... | 8 |
| 4.8 Packaging and labelling..... | 8 |
| 5 General requirement of quality assurance..... | 8 |
| 5.1 General..... | 8 |
| 5.2 Equivalency evaluation..... | 9 |
| 5.3 Identification..... | 9 |
| 5.4 Assay..... | 9 |
| 5.5 Particle size and particle size distribution..... | 9 |
| 5.6 Dissolution or disintegration test..... | 9 |
| 5.7 Determination of water or moisture content..... | 9 |
| 5.8 Uniformity of dosage units..... | 10 |
| 6 Requirements of safety tests..... | 10 |
| 6.1 Pesticide residues..... | 10 |
| 6.2 Heavy metals..... | 10 |
| 6.3 Aflatoxins..... | 10 |
| 6.4 Microorganism..... | 10 |
| Annex A (informative) Production, quality and selection of crude drugs..... | 11 |
| Annex B (informative) Particle size distribution..... | 12 |
| Annex C (informative) Equivalency evaluation..... | 13 |
| Annex D (informative) Determination of the content of methanol-soluble extractives..... | 15 |
| Bibliography..... | 17 |
