ISO 22585:2022-03 (E)

Traditional Chinese medicine - Codonopsis pilosula root

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Descriptions 2

5 Requirements 3
5.1 Morphological features 3
5.1.1 Appearance 3
5.1.2 Colour 3
5.1.3 Dimensions 3
5.1.4 Texture 3
5.1.5 Odour and taste 3
5.2 Moisture 3
5.3 Total ash 3
5.4 Acid-insoluble ash 3
5.5 Ethanol-soluble extractives 3
5.6 Thin-layer chromatogram (TLC) identification 3
5.7 of marker compound 3
5.8 Heavy metals 4
5.9 Pesticide residues 4
5.10 Sulfur dioxide residues 4

6 Sampling 4

7 Test methods 4
7.1 Macroscopic identification 4
7.2 Determination of moisture content 4
7.3 Determination of total ash content 4
7.4 Determination of acid-insoluble ash content 4
7.5 Determination of ethanol-solution extractives content 4
7.6 Thin-layer chromatogram (TLC) identification 4
7.7 Determination of lobetyolin content 4
7.8 Determination of heavy metals content 4
7.9 Determination of pesticide residues content 4
7.10 Determination of sulfur dioxide residues content 5

8 Test report 5

9 Packaging, storage and transportation 5

10 Marking and labelling 5

Annex A (informative) Determination of ethanol-soluble extractives 6

Annex B (informative)Thin-layerchromatogram(TLC)identification 7

Annex C (informative) Determination of lobetyolin content 9

Annex D (informative) Referenced values of Codonopsis pilosula root in different countries and regions 12

Bibliography 14
