## Needle-based injection systems for medical use - Requirements and test methods - Part 6: On-body delivery systems

---

| <b>Contents</b>       |  | <b>Page</b> |
|-----------------------|--|-------------|
| Foreword .....        |  | iv          |
| Introduction .....    |  | v           |
| 1                     | Scope .....  | 1           |
| 2                     | Normative references .....   | 1           |
| 3                     | Terms and definitions .....  | 1           |
| 4                     | Requirements .....   | 3           |
| 4.1                   | General .....  | 3           |
| 4.2                   | Risk assessment .....  | 3           |
| 4.3                   | Usability engineering .....  | 3           |
| 4.4                   | Uncertainty of measurement and conformance with specifications ..... | 3           |
| 4.5                   | General design requirements .....                                    | 3           |
| 4.6                   | Physical or mechanical requirements and test methods .....           | 3           |
| 4.6.1                 | General .....  | 3           |
| 4.6.2                 | Systems comprising rigid needles .....                               | 3           |
| 4.6.3                 | Systems comprising a soft cannula(s) .....                           | 3           |
| 4.6.4                 | Leakage from the OBDS .....  | 3           |
| 4.6.5                 | Means of attachment .....  | 4           |
| 4.6.6                 | Occlusion .....  | 4           |
| 4.7                   | Functional performance requirements and test methods .....           | 5           |
| 4.7.1                 | General .....  | 5           |
| 4.7.2                 | Dosing requirements and methods .....                                | 5           |
| 4.7.3                 | Sharps injury protection .....                                       | 6           |
| 4.7.4                 | Automated functions .....  | 6           |
| 4.7.5                 | Injection depth and needle extension .....                           | 7           |
| 4.8                   | Biological requirements of the OBDS .....                            | 7           |
| 4.8.1                 | Sterility of OBDS .....  | 7           |
| 4.8.2                 | Biocompatibility .....   | 7           |
| 4.9                   | Medicinal product compatibility .....                                | 7           |
| 4.9.1                 | General .....  | 7           |
| 4.9.2                 | Particulates .....   | 7           |
| 4.9.3                 | Pyrogenicity .....   | 7           |
| 4.9.4                 | Extractable/leachables .....   | 7           |
| 4.10                  | Electrical safety and software requirements .....                    | 8           |
| 4.10.1                | Electrical safety .....  | 8           |
| 4.10.2                | Software .....   | 8           |
| 5                     | Inspection .....   | 8           |
| 6                     | Information supplied by the manufacturer .....                       | 8           |
| Annex A (informative) | Test methods for adhesion .....                                      | 9           |
| Annex B (informative) | Dosedelivery profiles .....  | 10          |
| Annex C (informative) | In vitro methods in relation to needle/cannula displacement .....    | 16          |
| Bibliography .....    |  | 17          |
