Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Design requirements and recommendations 9
4.1 General 9
4.2 Wheelchair securement 9
4.3 Occupant restraints 9
4.3.1 Accommodation of vehicle-mounted three-point belt restraints 9
4.3.2 Wheelchair-mounted occupant restraints 9
4.4 Wheelchair head and back supports for small children 10
4.5 Risk management in modifying wheelchairs that conform to this document 10

5 Performance requirements and recommendations 10
5.1 General 10
5.2 Frontal impact 10
5.3 Accessibility of securement points intended for use with strap-type tiedowns 12
5.4 Clear paths for strap-type tiedowns 12
5.5 Accommodation of vehicle-mounted belt restraints 12
5.6 Wheelchair-mounted belt restraints 13

6 Identification,labelling,userinstructions,warning,anddisclosurerequirements and recommendations 13
6.1 General 13
6.2 Identification and labelling 13
6.3 Presale literature 14
6.4 User and maintenance instructions 15

7 Documentation of conformance 18
7.1 General 18
7.2 Frontal impact test 18
7.3 Design, labelling, and literature requirements 19

Annex A (normative) Method for frontal impact test 20

Annex B (normative) Specifications for securement points on wheelchairs intended for attachment of four-point strap-type tiedowns 29

Annex C (normative)Methodfortestingaccessibilityandtiedownclearpathsofwheelchair securement points intended for attachment of four-point strap-type tiedowns 33

Annex D (normative) Methods for rating wheelchair accommodation of vehicle-mounted occupantbeltrestraints 42

Annex E (normative) Specifications for Surrogate Wheelchair Tiedown and Occupant Restraint System (SWTORS) with four-point strap-type tiedown and three-point beltrestraint 48

Annex F (informative)SpecificationsforwheelchairUniversalDockingInterfaceGeometry (UDIG) 61

Annex G (informative)Wheelchairdesign,performance,andlabellingrecommendations for improved protection of occupants seated facing forward in wheelchairs during rear impacts 66

Annex H (normative) Design and performance requirements for five-point harness restraintsforchildrenlessthan23kg 75

ISO 7176-19:2022(E) Annex I (informative) Performance considerations for five-point harness restraints for childrenlessthan23kg 77

Annex J (informative) Design and performance requirements for wheelchair-mounted occupantrestraintsforusebypeoplewithbodymassequaltoorgreaterthan23kg 78

Annex K (normative) Requirements and recommendations when providing more than four securement points 84

Annex L (informative)Checklistofrequirements 87

Annex M (informative) Indication of main values in imperial units 89
