

ISO 5472:2022-08 (E)

Healthcare organization management - Pandemic response (respiratory) - Walk-through screening station

| Contents | Page |
|--|-----------|
| Foreword | iv |
| Introduction | v |
| 1 Scope | 1 |
| 2 Normative references | 1 |
| 3 Terms and definitions | 1 |
| 4 Overview of WTSS | 3 |
| 4.1 Fundamental concept | 3 |
| 4.2 Four types of WTSS | 5 |
| 5 Open WTSS | 5 |
| 5.1 Operational principles | 5 |
| 5.2 Screening process | 5 |
| 5.2.1 Registration | 5 |
| 5.2.2 Examination | 5 |
| 5.2.3 Specimen collection | 5 |
| 5.2.4 Notification of test result | 5 |
| 6 Negative pressure WTSS | 6 |
| 6.1 Operational principles | 6 |
| 6.2 Screening process | 6 |
| 6.2.1 General | 6 |
| 6.2.2 Registration and questionnaire | 7 |
| 6.2.3 Examination | 7 |
| 6.2.4 Specimen collection | 7 |
| 6.2.5 Ventilation | 7 |
| 6.2.6 Disinfection | 8 |
| 6.2.7 Storage of the collected specimen | 8 |
| 6.2.8 Notification of test result | 9 |
| 7 Positive pressure WTSS | 9 |
| 7.1 Operational principles | 9 |
| 7.2 Screening process | 9 |
| 7.2.1 Reservation | 9 |
| 7.2.2 Registration | 9 |
| 7.2.3 Medical examination | 9 |
| 7.2.4 Specimen collection | 10 |
| 7.2.5 After specimen collection | 10 |
| 7.2.6 Disinfection | 10 |
| 7.2.7 Notification of test result | 10 |
| 8 Adaptable pressure | 10 |
| Annex A (informative) Example of WTSS -- Negative pressurized medical container | 11 |
