| Foreword .....   |   | iv          |
| Introduction .....   |   | v           |
| 1  | Scope .....                                       | 1           |
| 2  | Normative references .....                        | 1           |
| 3  | Terms and definitions .....                       | 1           |
| 4  | Symbols .....                                     | 3           |
| 5  | Dimensions .....                                  | 4           |
| 5.1  | General .....                                     | 4           |
| 5.2  | Bottles without sealing ring .....                | 4           |
| 5.3  | Bottles with sealing ring .....                   | 5           |
| 6  | Material .....                                    | 7           |
| 7  | Requirements .....                                | 7           |
| 7.1  | General requirements .....                        | 7           |
| 7.2  | Physical requirements .....                       | 7           |
| 7.2.1  | Vertical Force .....                              | 7           |
| 7.2.2  | Particulate contaminations .....                  | 8           |
| 7.3  | Chemical requirements .....                       | 8           |
| 7.4  | Sterilization .....                               | 8           |
| 8  | Marking of the bottle .....                       | 8           |
| 9  | Packaging options .....                           | 8           |
| 9.1  | General packaging requirements .....              | 8           |
| 9.2  | Packaging for nonsterile glass bottles .....      | 9           |
| 9.3  | Ready to sterilize or sterile glass bottles ..... | 9           |
| Annex A (informative) Snap-on considerations .....                 |   | 10          |
| Annex B (informative) Tightness test .....                         |   | 12          |
| Annex C (informative) Inner depth measuring .....                  |   | 13          |
| Annex D (informative) Vertical force measurement test method ..... |   | 14          |
| Annex E (informative) Example of a packaging configuration .....   |   | 16          |
| Bibliography .....   |   | 17          |
