## Biotechnology - Minimum requirements for optical signal measurements in photometric methods for biological samples

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principles .....	4
4.1	General .....	4
4.2	Instruments and measurements .....	5
4.3	Optical references .....	6
5	Minimum requirements to support optical signal measurement .....	6
5.1	Elements of photometric methods .....	6
5.2	Verification of optical signal measurement instruments .....	7
5.2.1	Optical references .....	7
5.2.2	Dynamic range .....	7
5.2.3	Background signals .....	8
5.3	Optical signal measurement of biological samples .....	8
5.3.1	Optical signal measurement .....	8
5.3.2	Calibration curve .....	8
5.3.3	Photometric methods .....	9
5.3.4	Personnel .....	9
5.4	Data analysis and reporting .....	9
Annex A (informative)	Principles of bioluminescence, chemiluminescence, fluorescence and absorption .....	11
Annex B (informative)	List of optical references, optical signal measurement instruments and representative photometric methods .....	14
Annex C (informative)	List of relevant standards describing representative methods by means of optical signal measurements .....	15
Annex D (informative)	Example of qualification of luminometer using LED reference light source .....	16
Annex E (informative)	Example of application of reference light source for comparison measurements of bioluminescent sample using luminometers .....	18
Annex F (informative)	Example of determination of well-to-well crosstalk in multi-well plates .....	20
Annex G (informative)	Examples of dynamic range determination of luminometer .....	22
Annex H (informative)	Example of construction of calibration curve and dynamic range determination of fluorescence plate reader .....	25
Annex I (informative)	Example of dynamic range determination of a flow cytometer .....	27

<b>Annex J (informative) Example of calibration of reference light sources and luminometers .....</b>	<b>29</b>
<b>Annex K (informative) Examples of spectral properties of photodetectors .....</b>	<b>32</b>
<b>Bibliography .....</b>	<b>34</b>
