ISO 9109:2024-01 (E)

Traditional Chinese medicine - Rehmannia glutinosa root

Contents

Page

Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Description **2**

5 Requirements **2**

5.1 General characteristics 2
5.2 Morphological characteristics 3
5.3 Microscopic characteristics 3
5.4 Moisture 3
5.5 Total ash 3
5.6 Acid-insoluble ash 4
5.7 Water-soluble extractives 4
5.8 Thin-layer chromatogram (TLC) identification 4
5.9 Content of marker compounds 4
5.10 Heavy metals 4
5.11 Pesticide residues 4
5.12 Sulfur dioxide residues 4
5.13 Grading 4

6 Sampling **4**

7 Test methods **4**

7.1 Macroscopic identification 4
7.2 Determination of moisture 4
7.3 Determination of total ash 4
7.4 Determination of acid-insoluble ash 5
7.5 Determination of water-soluble extractives 5
7.6 Thin-layer chromatogram (TLC) identification 5
7.7 Determination of marker compounds 5
7.8 Determination of heavy metals 5
7.9 Determination of pesticide residues 5
7.10 Determination of sulfur dioxideresidues 5

8 Test report **5**

9 Packaging, storage and transportation **5**

10 Marking and labelling **6**

Annex A (informative) **Identification of catalpol** **7**

Annex B (informative) **Identification of verbascoside** **9**

Annex C (informative) **Determination of catalpol content** **11**

Annex D (informative) **Determination of rehmannioside D content** **14**

Annex E (informative) **Example of traditional grading of *Rehmannia glutinosa* root** **17**

Annex F (informative) **National and regional requirements for *Rehmannia glutinosa* root** **18**

Bibliography **20**
