

ISO 9109:2024-01 (E)

Traditional Chinese medicine - *Rehmannia glutinosa* root

Contents	Page
Foreword.....	iv
Introduction.....	v
1 Scope.....	1
2 Normative references.....	1
3 Terms and definitions.....	1
4 Description.....	2
5 Requirements.....	2
5.1 General characteristics.....	2
5.2 Morphological characteristics.....	3
5.3 Microscopic characteristics.....	3
5.4 Moisture.....	3
5.5 Total ash.....	3
5.6 Acid-insoluble ash.....	4
5.7 Water-soluble extractives.....	4
5.8 Thin-layer chromatogram (TLC) identification.....	4
5.9 Content of marker compounds.....	4
5.10 Heavy metals.....	4
5.11 Pesticide residues.....	4
5.12 Sulfur dioxide residues.....	4
5.13 Grading.....	4
6 Sampling.....	4
7 Test methods.....	4
7.1 Macroscopic identification.....	4
7.2 Determination of moisture.....	4
7.3 Determination of total ash.....	4
7.4 Determination of acid-insoluble ash.....	5
7.5 Determination of water-soluble extractives.....	5
7.6 Thin-layer chromatogram (TLC) identification.....	5
7.7 Determination of marker compounds.....	5
7.8 Determination of heavy metals.....	5
7.9 Determination of pesticide residues.....	5
7.10 Determination of sulfur dioxideresidues.....	5
8 Test report.....	5
9 Packaging, storage and transportation.....	5
10 Marking and labelling.....	6
Annex A (informative) Identification of catalpol.....	7
Annex B (informative) Identification of verbascoside.....	9
Annex C (informative) Determination of catalpol content.....	11
Annex D (informative) Determination of rehmannioside D content.....	14
Annex E (informative) Example of traditional grading of <i>Rehmannia glutinosa</i> root.....	17
Annex F (informative) National and regional requirements for <i>Rehmannia glutinosa</i> root.....	18
Bibliography.....	20
