Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Separate operation of a ward dedicated to respiratory infectious diseases **2**
4.1 General 2
4.2 Principles of isolation room assignment and operation 2

5 Transportation of confirmed cases and roles of the dedicated healthcare team in a ward dedicated to respiratory infectious diseases **4**
5.1 Patient transportation 4
5.1.1 Safe patient transportation 4
5.1.2 Roles and composition of dedicated patient transportation team 4
5.1.3 Precautions for patient transportation 5
5.1.4 Patient transportation[8] 6
5.1.5 Detailed handling procedures[9] 6
5.2 Roles of the dedicated healthcare team in a ward dedicated to respiratory infectious diseases and management of visitors (or guests) 7
5.2.1 Roles and composition of the dedicated healthcare team in a ward dedicated to respiratory infectious diseases 7
5.2.2 Management of confirmed cases and visitors (or guests) in a ward dedicated to respiratory infectious diseases 8

6 Cleaning, disinfection and waste management **9**
6.1 Disinfection of contaminated areas (rooms and equipment) 9
6.1.1 Precautions for disinfection [10] 9
6.1.2 Disinfection methods 9
6.1.3 Precautions after disinfection[7][6] 12
6.2 Waste collection 12
6.2.1 Key measures for preventing the cross-infection of waste collectors 12
6.2.2 Principles for medical waste disposal 13
6.2.3 Wearing PPE during waste disposal 13
6.2.4 Safe waste disposal 13

Annex A (informative) **Facility standards for isolation rooms in a ward dedicated to respiratory infectious diseases** **16**

Annex B (informative) **Ward facility management for preventing cross-infection** **19**

Annex C (informative) **Terminal cleaning checklist** **26**

Bibliography **28**
