Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Descriptions 2

5 Quality and safety requirements and recommendations 4

5.1 General characteristics 4
5.2 Macroscopic features 4
5.3 Microscopic feature 4
5.4 Thin-layer chromatography (TLC) features 4
5.5 Marker compounds 4
5.6 Essential oil 4
5.7 Ethanol-soluble extractive 4
5.8 Total ash 5
5.9 Acid-insoluble ash 5
5.10 Moisture or loss on drying 5
5.11 Foreign matter 5
5.12 Heavy metals 5
5.13 Pesticide residues 5
5.14 Sulfur dioxide 5
5.15 Aflatoxins 5

6 Sampling 5

7 Test methods 5

7.1 Identification of macroscopic features 5
7.2 Identification of microscopic features 5
7.3 Identification of thin-layer chromatogram 5
7.4 Determination of marker compounds 6
7.5 Determination of essential oil 6
7.6 Determination of ethanol-soluble extractive 6
7.7 Determination of total ash 6
7.8 Determination of acid-insoluble ash 6
7.9 Determination of moisture 6
7.10 Determination of foreign matter 6
7.11 Determination of heavy metals 6
7.12 Determination of pesticide residues 6
7.13 Determination of sulfur dioxide 6
7.14 Determination of aflatoxin 6

8 Test report 6

9 Packaging, storage and transportation 7

10 Marking and labelling 7

Annex A (informative) **Identification of thin-layer chromatogram** 8

Annex B (informative) **Determination of total content of curcuminoids** 10

Annex C (informative) **Reference of national and regional requirements** 12

Annex D (informative) **Examples for traditional grading information for *Curcuma longa* rhizome** 14
