## Traditional Chinese medicine - Test method for moxa floss quality - Concentration of waste particles

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Sampling .....	3
4.1	General .....	3
4.2	Sampling methods .....	3
4.2.1	Moxa floss products .....	3
4.2.2	Moxa floss in the moxibustion devices .....	3
4.3	Sample storage .....	3
5	Measurement of concentration of waste particle .....	3
5.1	General .....	3
5.2	Test instruments .....	4
5.2.1	General .....	4
5.2.2	Test sieves .....	4
5.2.3	Sieving machine .....	4
5.2.4	Test instruments organization .....	4
5.3	Test procedure .....	4
5.3.1	General .....	4
5.3.2	Sieving .....	4
5.3.3	Weighing .....	4
6	Calculation of concentration of waste particle .....	5
6.1	Total mass of specimen .....	5
6.2	Waste particle rate .....	5
6.3	Unseparation rate .....	6
7	Delivery of the moxa floss quality information .....	6
7.1	General .....	6
7.2	Indication .....	6
Annex A (informative) Example of test instruments .....		7
Annex B (informative) Test result of concentration of waste particle in moxa floss .....		9
Bibliography .....		10
