Page

European foreword 3

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 General requirements 7

5 Performance requirements and test methods 7

6 Sterilization compatibility 9

7 Labelling 9
7.1 Transport packaging 9
7.2 Labelling of individual units 10

8 Information to be supplied 10
8.1 Information on the sealing conditions 10
8.2 Environmental declarations 10

Annex A (normative) Method for the determination of water repellency 11

Annex B (normative) Method for the determination of pore size 14

Annex C (normative) Method for the determination of regularity of seal adhesive coatings on paper 19

Annex D (normative) Method for the determination of mass per unit area of uncoated paper and adhesive coating 21

Annex E (normative) Method for the determination of seal strength and mode of specimen failure ..24

Annex F (informative) Repeatability and reproducibility of test methods 26

Annex G (informative) Environmental aspects 28
